Updates

1.0.0 Update:

- Halloween is here, 82 new models!
- Graveyard Demo Scene

Universal Texture

Our universal atlas texture comes with different color variations and it's quite a powerful tool to make all objects optimized and verified.

FAQ

They're not stupid questions, just stupid answers from us.

Will your packs work with URP or HDRP?

All of our packs are made with standard Unity shaders so it's quite easy to upgrade them to the URP. Here is the video on how to do it:

https://www.youtube.com/watch?v=QsvmXpWxF_o&t

For the HDRP, this is a great source of inspiration:
